GEOCHEMICAL EVOLUTION AND METALLOGENY OF CONTINENTS

Dear Colleague,

July 2004

This year we have started to change the format of the Annual Report. The printed version contains only part of the report and the remainder is available on our website at [www.es.mq.edu.au/GEMOC/](http://www.es.mq.edu.au/GEMOC/) by clicking the link to the 2003 Annual Report.

The full Report information is also available on CD by request and downloadable from the website as several pdf files. We have plans to make the 2004 Report available only on CD and via the web.

We would appreciate your feedback through the following questionnaire

1) Do you prefer to have the GEMOC Annual Report available as:

\* www only: yes / no

\* CD and via www: yes / no

\* Research Highlights in hard copy  
and remainder on CD and web: yes / no

\* Full hard copy and web: yes / no

2) Other comments:

3) Name:

We hope you enjoy this account of our 2003 activities.

Suzanne Y. O'Reilly
